Hoople Ltd. and Herefordshire Council
Ruth Leak
Practice Learning Facilitator
1. **Context**

1.1 Practice based learning is a core component of social work education. Good quality placements with experienced Workplace Supervisors and qualified Practice Educators are key government and local strategies to equip students with the skills, knowledge, capability and emotional resilience for front line practice.

1.2 The requirement for practice placements in the professional education of social work students is set out in the Department of Health Requirements for Social Work Training (2002), the Health and Care Professions Council’s Standards of Education and Training (2012), the Quality Assurance Agency (QAA) Subject Benchmark Statement for Social Work (2008) and the former College of Social Work’s Practice Learning Guidance (no date).

1.3 Herefordshire Council has an agreement with Hoople Ltd. to arrange social work student placements on behalf of Adults and Children’s Wellbeing Directorates. This policy provides an overview of the council’s position on placements and covers guiding principles, partnership arrangements, requirements, quality assurance and finances.

1.4 Reporting will be made to the joint Adults and Children’s Wellbeing development group which has direct working links to the respective workforce and practice development leads.

2. **Guiding Principles**

2.1 To provide high quality social work practice placements that support and challenge.

2.2 To give a rounded experience of social work practice to prepare for a career in the profession.

2.3 To demonstrate a commitment to social work values, an anti-discriminatory and anti-oppressive approach.
2.4 Working openly and transparently with stakeholders.

2.5 Meeting the requirements of legal and registering bodies such as the Department for Education and Health and Care Professions Council (HCPC).

2.6 To operate a quality assurance framework in relation to:
   (i) Preparation for placement
   (ii) Providing skilled and experienced Workplace Supervisors and
   (iii) Qualified and up to date Practice Educators
   (iv) Enhancement opportunities for students on placement

2.7 To capitalise on student placements for Herefordshire Council’s recruitment strategy.

3. Partnerships with Higher Education Institutes (HEIs)

3.1 The council will prioritise commitments made in its agreements with the Universities of Gloucestershire and Worcester on their undergraduate courses, the University of Worcester on its Master’s course and the Regional Partnership Step Up to Social Work programme.

3.2 The agreements specify the numbers of student placements to be provided. In practice more can be arranged depending on capacity and suitability.

3.3 Due to competing pressures the HEI and council may sometimes be unable to meet its commitments. When this happens the council will communicate openly with its partner to achieve best outcomes for the student or any other situation

3.3 Depending on capacity and suitability, additional placements can be arranged on an ad hoc basis with other universities.
3.4 The council will always meet professional requirements for student placements and will do its best to meet HEI’s aspirational standards. When this cannot be achieved the HEI will be informed and will make the final decision whether the placement should go ahead.

3.5 Agreements are subject to regular review and re-negotiation.

4. Quality Assurance

4.1 Practice Placements

4.1.1 Placements will adhere to the criteria set out in The (former) College of Social Work’s (TCSW) Practice Learning Guidance (undated).
